2.2 – The Basis for Care

2.3 – The Purpose of School

2.4 – Classroom Coaches

2.5 – Two Questions

REFLECT

Understanding is the basis of care. If we are going to properly care for something, we must properly understand the purpose of it. In our transformational journey of learning how to properly care for the students entrusted to us, we must also understand the purpose of school and our role as a teacher.

1. Would you describe the current educational culture as healthy or unhealthy? Why?

2. How do you define the word “teacher”?

3. In your opinion, what is the purpose of school?

DISCUSS

The origin of the English word “coach” comes from the 16th century when it was known as a covered carriage that takes a person of importance from where they are to where they want or need to go. We as teachers need to do this with our students in a safe environment which allows for growth, learning, and maturing into adults we all desire them to be.

1. Where are your students now?

2. Where are you taking them?

3. What are some tactics you can use to help each student see the purpose in why they need to grow?
